

Fulton Precision Industries, Inc. Achieves Prestigious Supplier Quality Excellence Process (SQEP) Certification from Caterpillar, Inc.

For the third consecutive year, Fulton Precision Industries, Inc. has earned the SQEP Certification from Caterpillar for their performance in manufacturing and distributing an array of transmission shafts and gears, among other components.

This year, our Performance Metrics were much improved, earning us the Silver Level Certification!

The SQEP Process encompasses both quality metrics and delivery performance which ensures that suppliers are achieving stringent standards to meeting and exceeding Caterpillar's expectations.

We at F.P.I., are very honored to receive such a recognition. This type of acknowledgement validates the execution and commitment to quality that our employees strive for and deliver each day.
